

QUALITY

We do our best to provide top quality products. We work with proven suppliers and carefully select our components. In addition, to make sure that our product does not lead to disappointment, every item undergoes a **three-stage quality inspection**.

TIME

You just select a model, a colour, an identification method, accessories and packaging, and we will deliver finished flash drives as soon as possible. **Our factory is located in Poland where** we await your orders. If you need your products unmarked, we will send them out the **following day**. With marking or any additional services, we will deliver them within **3 days**. Take advantage of the local production benefits.

EXPERIENCE

You can rely on our **experience**, as since 2004 we have been producing millions of USB flash drives with logos. We have been pioneers in using the USB flash drives for the promotion of companies in the market. **Our experience - your satisfaction.**

Range:	70cm
Case:	plastic
Dimensions:	95 x 52 x 18 mm
Logo dimensions:	30 x 30mm
Marking methods:	highlighted logo, pad printing

SERVICES

Laser engraving

A method used for permanent marking on metal, leather, wood and plastic articles. Engraving is durable and indestructible, giving a very elegant effect.

Pad printing

It enables various colours to be printed. This technique is characterised by the high quality and durability of workmanship.

Full-Colour print

This technique is characterised by more details, allowing printing within a full range of colours.

Doming - 3D sticker

The sticker is covered with synthetic resin. Thanks to this process, a convex layer is created which in turn makes the colours of the printed graphics/logo deeper and more vivid. This is durable (protection against damage and discolouration) and impressive labelling technology.

Data uploading

Our USB flash drives may be delivered with recorded contents (such as presentation, catalogues, promotional materials, etc.).

Fast delivery

Your order will be shipped in the shortest possible time (up to 3 business days).
